

Charge myHyundai

provided by Digital Charging Solutions GmbH

Price list Great Britain

Introduction

The Charge myHyundai Service rates are governed by the maximum charging speed, for which a fast charging speed usually also implies higher costs. Reduced charging rates from Preferred Partners, such as IONITY, may be regarded as exceptions.

The Charge myHyundai Service differentiates the following charging speeds:

AC – alternating current (normal charging)

DC – direct current (fast charging)

HPC – high power charging (ultra-fast charging)

The maximum charging power capacity of each charging station can be found on the Charge myHyundai website and the Charge myHyundai app.

Please note that the transaction units for charging in public areas may vary due to regulatory requirements in the individual European countries. A transaction is differentiated in terms of kWh, time (min.), or by charging event. All prices are individually based on charge point operators. A variable tariff applies with regard to the individual charging process. The prices depend on respective charge point operators. For charging abroad (= e-roaming), you will always pay the local sales rate without any additional fees.

Optional package(s) that you can subscribe to after registering (availability depends on the selected tariff):

IONITY Premium

-0.26 GBP discount on the flexible price per kWh of the Flex tariff for charging sessions at all IONITY charging points in United Kingdom. The charging session fee does not apply.

Contract terms

*Booking the package grants a discount of -0.26 GBP, which results in the currently valid price for HPC charging.

A different price per kWh may apply when the respective electricity supply contract is concluded (start of the charging process). The current price will be displayed on the map in the app or on the Charge myHyundai website before you start charging. You must be logged in for this. Please download the full price list for more information.

Contract duration

The IONITY Premium package has an initial term of 1 month. Thereafter, it runs for an indefinite period and can be cancelled by the customer with effect to the contract qualifying date. The contract qualifying date is the day of a month preceding the day equivalent to the date the package was booked. For example, if the IONITY Premium package was booked on the 7th day of a month, the contract qualifying date is the 6th day of the following months. In case the respective date is non-existent in a particular month, the contract qualifying date is the last day of that month. Digital Charging Solutions GmbH, the company behind Charge myHyundai, may terminate the IONITY Premium package with a notice period of one month (a) with effect to the contract qualifying date or (b) to the end of a calendar month. Furthermore, the IONITY Premium package automatically ends if the Charging Contract is terminated.

All prices include VAT

1) In some cases the operator-specific price components may encompass an additional session fee.

2) The charging service contract runs for an indefinite period of time and can be terminated by the customer at any time from the reference date of the contract, with a notice period of no more than one month.

Charging Event Transaction

The invoicing of varying fees for charging is based on the appropriate tariff per minute (per commenced minute), per kWh or per charging event. The charging event starts if the vehicle is connected to the charging station and ends when it is disconnected. You can also recharge for free using the Charge myHyundai service at free charging stations.

All rates incl. VAT, subject to changes and errors.
